RAVI VARMAN S

PROJECT ASSOCIATE (FRESHER) — Full Stack Development, AI / Machine Learning, IoT & Embedded Systems

Tamil Nadu, India ☎ +91 80561 99077 ✉ ravivarmansenthilkumar@gmail.com Immediate Joiner
ravi-varman-s.github.io/portfolio linkedin.com/in/ravi-varman-s-ab70a1397

PROFESSIONAL SUMMARY

B.E. Computer Science & Engineering graduate (2026, CGPA 7.9/10) applying for the **Project Associate (Fresher)** position, with hands-on experience in **full stack development, AI/ML applications, IoT/embedded prototypes, automation and testing** through projects and internships at HCLTech, Scode and Infosys Foundation. Works with Python, Java, JavaScript, React, Node.js, REST APIs, MongoDB, MySQL and Playwright. Immediate joiner, open to any notified location in India.

DOMAIN FIT AGAINST RECRUITMENT DOMAINS

Full Stack / Web & Software Technology	Zero Barrier platform — React, Node.js, REST APIs, MongoDB/MySQL
AI / Machine Learning / Data Science	Blackspot Prediction — AI & GIS accident risk analysis project
IoT / Embedded Systems	Smart Door Lock — facial biometrics access-control prototype
IT / Testing-QA / Technical Support	Playwright automation; internships at HCLTech & Infosys Foundation
Design / UI-UX / Web Designing	UI implementation and accessibility-focused design work
Cyber & Network Security / Communication	Coursework; secure authentication-based application design
Quantum Computing / HPC	B.E. CSE fundamentals; eager to upskill on the project

TECHNICAL SKILLS

Languages: Python, Java, JavaScript · **Frontend:** React, HTML, CSS · **Backend:** Node.js, Express, REST APIs
Databases: MongoDB, MySQL · **AI / Automation:** AI-based applications, GIS data analysis, Playwright, RPA workflows · **Tools:** Git, GitHub, VS Code

PROJECTS

What Happened Here? 2.0 — Audio Forensics Web App (Flagship)
- Built an audio-forensics web app that detects, labels and timestamps events in 2–3 minute recordings.
- Combined hand-written signal processing with YAMNet AI labelling (521 audio classes) and a live spectrogram UI.

Zero Barrier — Job Application Platform
- Built a job application platform that simplifies job discovery for users with limited technical experience.
- Applied full stack concepts (React, Node.js, REST APIs, MongoDB/MySQL) with a focus on accessibility and usability.

Blackspot Prediction — AI & GIS
- Developed an AI & GIS project predicting accident blackspots to identify road locations with elevated risk.
- Analysed location-based accident patterns to support high-risk area identification and road-safety decisions.

Smart Door Lock — Facial Biometrics (IoT / Embedded)
- Developed a real-time access-control prototype authenticating users via facial biometrics before unlocking the door.
- Combined application logic with biometric recognition for contactless, identity-based access control.

INTERNSHIP EXPERIENCE

Full Stack Development Intern · **HCLTech** | *Jul 2025*
Java full stack development training: built web application functionality and worked with database integration.

RPA Intern · **Infosys Foundation CSR IT Training Program** | *Aug – Sep 2025*
Created automation workflows for repetitive tasks, tested process logic, and improved execution efficiency.

App Development Intern · **Scode Software Solutions** | *Feb 2025*
Developed mobile application features, contributed to UI implementation and debugging, gained app-development experience.

EDUCATION

B.E. Computer Science & Engineering — MRK Institute of Technology, 2026 · CGPA 7.9 / 10
HSC (XII) — CK School of PKMS, 2022 · 72.7% | SSLC (X) — CK School of PKMS, 2021 · 72.7%

ADDITIONAL

Languages: Tamil, English · **Soft Skills:** Communication, Team Collaboration, Time Management, Creative Problem Solving
Availability: Immediate joiner (0 days notice period) · **Location:** Open to any notified location — Chennai, Delhi, Hyderabad, Kolkata, Mumbai, Chandigarh, Kochi, Goa, Vizag, Bhopal, Karwar, New Delhi, or anywhere in India

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
